

SPRAY NOZZLES FOR INDUSTRIAL APPLICATIONS

**SOLUTIONS FOR
THE WINE-MAKING
INDUSTRY**

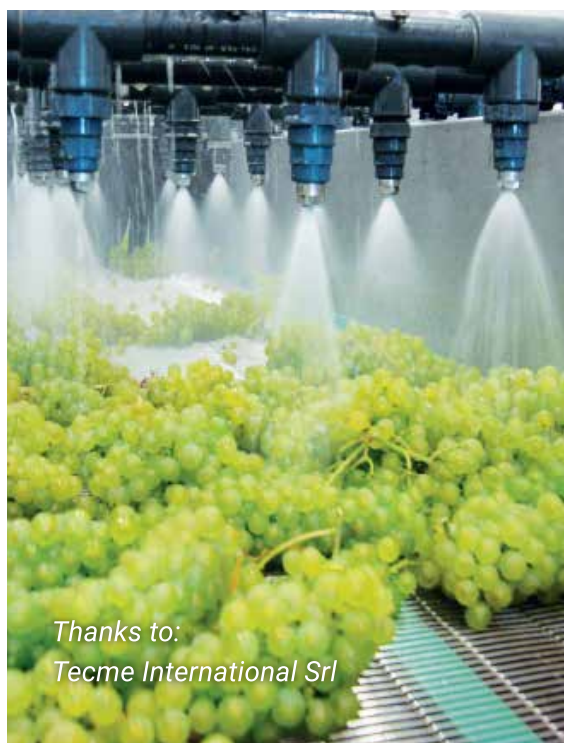

ATOMIZERS

WINE CELLARS HUMIDIFICATION

AIR ACTUATED atomizers, with one or two air inlets for a finely atomized spray and a cylinder for automatic operation.

ULTRASONIC atomizers, suitable for a wide spray distribution on large surfaces.

HYDRAULIC atomizers, producing a very finely atomized spray, even at low pressure values and without compressed air.

Tecme International Srl

NOZZLES & ACCESSORIES

FOR ALL OPERATIONAL STEPS

SPRAY NOZZLES with different spray patterns are widely used for washing grapes, sanitizing bottles, cleaning containers, and conveyor belts lubrication.

ASSEMBLY ACCESSORIES such as pipe clamps, enable quick and easy installation of the spray nozzle onto any pipe, easy maintenance and cleaning operations.

WASH GUNS and **HOSE** for pipes of all dimensions and different working pressure.

TANK WASHING HEADS

A CHOICE OF SOLUTIONS FOR CLEANING YOUR TANKS

Low cost, efficient and highly customizable **FIXED** tank washing heads

High-speed washing cycles using a lot less water with **REACTION DRIVE** rotating tank cleaning heads

More power to your cleaning with **MOTOR** and **TURBINE DRIVE** technology

SOME FEATURES OF OUR TANK WASHING HEADS

- **ATEX VERSION** available on request
- **3-A CERTIFICATION FOR FIXED HEADS** available on request
- Construction materials meet the **EC 1935/2004 DIRECTIVE** (MOCA version for food industry) and **COMPLY WITH FDA NORMS**
- **100% MADE IN ITALY**

PNR IS CERTIFIED

For more information, please call us or visit our web site www.pnr.eu

Mobile carts are the most convenient solution for a rapid wash of open bottom tanks raised off the ground.

Their small wheels and raising system allow an easy positioning at the base of the tank and a quick insertion of the washing head inside it.
